Topic to present: PANDAS
Co-Presenters: Phil Jakubowski
Planning Committee contact for questions: Louise Wilson - louise.wilson@dpi.wi.gov

Session title as it should appear in program materials:

PANDAS in a School Setting: A Parent's Perspective

Description of content you will cover - as it should appear in program materials: *Please be specific about what you will address – if you will include cases/work through examples - this helps registrants decide which sessions are most relevant for their learning needs.*

Child background, initial school suggestions and support, medical treatments administered, post treatment school support.
Can schools help guide parents? What can be changed? Q&A session

Please write a few lines we can use to introduce you at the conference:

Phil and Kim Jakubowski are the proud parents of 2 intelligent girls. The day after their oldest child turned 12 they received the first of many calls from their child's school. Their nearly academically perfect child had changed overnight. Their world was turned upside down. The school was not reading the signals of the child's condition and was making suggestions that could have been harmful rather than helpful.
