

### THURSDAY CONFERENCE SCHEDULE

7:45-8:15 AM SITE OPENS FOR CONFERENCE - Participants can view Virtual Exhibit Hall or check out the Virtual Poster Display prior to the Keynote presentation.				
THURSDAY CONFERENCE April 15, 8:15-9:15 AM KEYNOTE PRESENTATION <i>(this session offers 1.0 contact hour/no Rx)</i>				
Advancing Evidence-based Practice and Clinician Well-being to Achieve Healthcare's Quadruple Aim: Strategies that Work!		Bernadette Mazurek Melnyk, PhD, APRN-CNP, FAANP, FNAP, FAAN <i>Vice President for Health Promotion, University Chief Wellness Officer, and Professor and Dean of the College of Nursing, The Ohio State University; Professor of Pediatrics and Psychiatry, Ohio State University College of Medicine</i>		This presentation will discuss evidence-based practice and clinician well-being as two essential strategies in order to meet the quadruple aim in healthcare. Evidence-based tactics to enhance and sustain both EBP and clinician well-being will be highlighted.
9:15-9:30 AM BREAK for Virtual Exhibit Hall and Virtual Poster Display				
THURSDAY CONFERENCE April 15, 9:30-10:30 AM BREAKOUT SESSION 1 <i>(each session offers 1.0 contact hour – choose one)</i>				
#	Rx	Title	Presenters	Session Description <span style="float: right;">Novice (N) or Experienced (E)</span>
1A	1.00	Neonatal Seizures	Jenna Jozwik, MSN, CPNP-PC, APNP <i>Nurse Practitioner, Medical College of Wisconsin</i>	Overview of neonatal seizures including etiology, electroencephalogram characteristics, clinical appearance, and medical management. Pharmacologic content is related to the management of acute symptomatic seizures, neonatal status epilepticus, and metabolic conditions. N + E
1B	.50	Part 1 - Obesity in Women <b>SESSION 1B IS REQUIRED TO ATTEND 2B.</b>	Christina M. Funk DNP, FNP-C, APNP <i>Director of Obesity Medicine, Nurse Practitioner, ReforMedicine s.c.</i>	In this session we will define obesity, gain a better understanding of its prevalence in women, and review the diagnosis, evaluation, and treatment of obesity in women. N + E
1C	.75	Appropriate Opioid Prescribing and Opioid Discontinuation in the Wake of America's Opioid Epidemic	Michael M. Miller, MD, DFASAM, DLFAPA <i>Interim Medical Director, Connections Counseling, LLC</i>	This presentation will cover strategies to reduce and mitigate the risks of the opioid epidemic, including safer opioid prescribing, and how to taper opioid therapy and manage opioid withdrawal in an office-based setting. N + E
1D	none	The "So What" Outcome Factor in Research and EBP Projects: A Necessity to Speed the Translation of Research into Practice	Bernadette Mazurek Melnyk, PhD, APRN-CNP, FAANP, FNAP, FAAN – <i>(see above)</i>	This presentation will describe the state of translating research and evidence-based interventions into real world clinical settings to improve outcomes. Barriers and facilitators will be discussed. The "so what" outcome as a critical factor in speeding the translation of evidence-based interventions into clinical settings will be highlighted. The presentation also will describe two successful programs of research as examples of success in scaling evidence-based interventions into practice. The Advancing Research and Clinical practice through close Collaboration (ARCC) Model will be emphasized as a successful framework for the rapid translation of evidence into practice to improve outcomes. N + E
10:30-10:45 AM BREAK for Virtual Exhibit Hall and Virtual Poster Display				

**THURSDAY CONFERENCE April 15, 10:45-12:00 BREAKOUT SESSION 2** (each session offers 1.25 contact hours – choose one)

#	Rx	Title	Presenters	Session Description	Novice (N) or Experienced (E)
2A	1.00	<b>Treatment of Pediatric Thyroid Disorders</b>	Colleen McCann RN, MN, APNP <i>Pediatric Nurse Practitioner, Medical College of Wisconsin/Children's Wisconsin</i>	Review the role of thyroid hormone in development of the child, review of clinical presentation, diagnosis and management of hypo- and hyperthyroidism, including case examples, discuss management and medication considerations in patients with thyroid nodules or thyroid cancer and overview of common medication induced thyroid disease. <b>N + E</b>	
2B	.50	<b>Part 2 - Obesity in Women: Practical Application + Case Studies</b> <b>MUST ATTEND 1B TO ATTEND THIS CLASS.</b>	Christina M. Funk DNP, FNP-C, APNP <i>Director of Obesity Medicine, Nurse Practitioner, ReforMedicine s.c.</i>	This session will expand upon the knowledge obtained in “Part 1: Obesity in Women” and will address how to begin treating obesity on Monday morning! This session will provide an overview of setting up an obesity treatment practice, how to structure treatment, review various practice models, and include a brief review of billing and coding for obesity. The session will conclude with Case Studies that will walk you through real life scenarios to help you understand how to build an obesity treatment plan for women. <b>N + E</b>	
2C	1.00	<b>The Office-Based Use of Pharmacotherapy in the Treatment of Opioid Use Disorder</b>	Michael M. Miller, MD, DFASAM, DLFAPA <i>Interim Medical Director, Connections Counseling, LLC</i>	An overview of how to treat addiction in an office-based setting as a non-specialist, focusing on the prescribing of buprenorphine products and long-acting injectable naltrexone as Medications for Opioid Use Disorder (MOUD). <b>N + E</b>	
2D	1.25	<b>Hyperglycemia &amp; Venous Reflux: Two Chronic Conditions and the Ulcers that Result</b>	Latisha Smith-Chase, MD - <i>Medical Director, Fort HealthCare Wound &amp; Edema Center</i>	What constitutes chronic wound care and how wounds heal. Will review the pathophysiology of venous leg ulcers and their management. Will review the pathophysiology and management of diabetic foot ulcers. A brief overview of advanced therapeutics currently available. <b>N + E</b>	

**12:00-12:45 PM LUNCH - Visit the Virtual Exhibit Hall and Virtual Poster Display**

**THURSDAY CONFERENCE April 15, 12:45-2:00 PM BREAKOUT SESSION 3** (each session offers 1.25 contact hours – choose one)

#	Rx	Specialty Track	Title	Presenters	Session Description	Novice (N) or Experienced (E)
3A	1.00	Pediatric/ Women's Health	<b>Fundamentals of Adolescent Contraception</b>	Melissa Vukovich, RN, MS, FNP <i>APNP Teen Health Clinic, Children's Wisconsin</i>	Participants will learn how to: identify and remove barriers and improve access to contraception in adolescent population; offer their adolescent patients appropriate counseling and options based on teen's medical and psychosocial needs; screen for medical eligibility criteria to ensure desired contraception is safe for individual. <b>N</b>	
3B	.50	Acute Care	<b>Liver Longer and Prosper – Management of the Failing Liver</b>	John P. Rice, MD - <i>Associate Professor of Medicine, Section Chief of Hepatology, UW School of Medicine and Public Health</i>	After reviewing end-stage liver disease definitions, we will further examine liver failure and management of resulting varices, ascites, and hepatic encephalopathy. Hepatocellular carcinoma diagnosis and management, as well as liver transplantation will also be addressed. <b>N + E</b>	
3C	1.00	Primary Care/ Geriatric	<b>Heart Failure Pearls for Practice</b>	Jennifer Martin, DNP, ANP-BC, APNP - <i>Cardiology Nurse Practitioner, Mercy Health System</i>	Presentation of Heart Failure signs and symptoms, evaluation/testing and medications to treat Heart Failure. There will also be discussion of case studies. <b>N + E</b>	
3D	1.25	Psychiatric	<b>Geriatric Medicine Management Pearls</b>	Heather Theisen, PharmD, BCGP <i>Lead Clinical Pharmacist-Neurology and Geriatrics, UnityPoint Health-Meriter</i>	Discuss physiologic changes as we age and their influence on drug therapy. Discuss application of geriatrics monitoring principles for reviewing drug regimens. Discuss delirium risk factors, prevention and management from a pharmacy perspective. <b>N</b>	

**2:00-2:15 PM BREAK for Virtual Exhibit Hall and Virtual Poster Display**

THURSDAY CONFERENCE April 15, 2:15-3:30 PM BREAKOUT SESSION 4 (each session offers 1.25 contact hours – choose one)					
#	Rx	Specialty Track	Title	Presenters	Session Description <span style="float: right;">Novice (N) or Experienced (E)</span>
4A	none	Pediatric	Multi-system Inflammatory Syndrome in Children: 2021 Update	Frank Zhu, MD - Assistant Professor of Pediatrics, Division of Pediatric Infectious Diseases, Medical College of Wisconsin; Medical Director of Infection Control and Prevention, Children's Wisconsin	A comprehensive review of the recent current literature involving presentation, diagnosis, and management of MISC as well as a review of our experience with MISC at Children's Wisconsin, a tertiary care children's hospital. <b>N + E</b>
4B	1.00	Women's Health	Updates in Vaginal Health	Myrtle Wilhite MD, MS Medical Director, A Woman's Touch Sexuality Resource Center	After a brief background of basic vaginal anatomy, physiology and microbiome homeostasis, the presentation will include common clinical cases primarily focusing on iatrogenic and natural postmenopausal issues. Presenter will brief cover the pros and cons of most available prescriptions and non-prescription options for addressing vaginal health. <b>N + E</b>
4C	none	Acute Care	Understanding "Troponin Leaks"	Kathy Wackerle, RN, MSN, APNP Cardiology Consult Nurse Practitioner, University of Wisconsin Medical Foundation	This talk will explain what troponin is and aid in the interpretation of its measurement. The talk will focus on differentiation of Type 1 MI, Type 2 MI and nonischemic causes of an elevated troponin in order to avoid misdiagnosis and optimize outcomes. Throughout the presentation appropriate clinical documentation of causes of elevated troponin will be addressed. Case examples will be used to highlight causes of elevated troponin. <b>N + E</b>
4D	1.00	Primary Care/ Geriatric	Diabetes, Comorbidity, Complexity, and Age: Case Review Studies	Trudy Mara RN, MS, FNP-C, GNP-C, ADM-BC, CDE - Nurse Practitioner, SSM Health Wisconsin - Baraboo Clinic	In-depth review of complex case studies involving counseling, medical decision making and follow-up for diabetic patients will include: Counseling the new diabetic person; The basal insulin start; Adding a bolus insulin; Adding a GLP-1; The patient with CAD; Determining whether Type 1 and Type 2 diabetes; The elderly, frail diabetic; The morbidly obese patient, Diabetes in the face of end stage renal disease. <b>E</b>
4E	.50	Psychiatric	Substance Use Disorder and Healthcare Professionals	Kristin Waite-Labott RN, BSN, CARN - Nurse Trainer, Rogers Behavioral Health	This presentation focuses on substance use disorder (SUD) in this country and in healthcare professionals. Information on how to recognize SUD in your coworkers and what to do if you do recognize it. You will also learn about medication-assisted treatment (MAT), with a focus on FDA approved MAT, and the Prescription Drug Monitoring Program. This presentation includes the presenter's, a registered nurse, personal struggle with SUD and how she overcame it. <b>N + E</b>
3:30-3:45 PM BREAK for Virtual Exhibit Hall and Virtual Poster Display					
THURSDAY CONFERENCE April 15, 3:45-5:00 pm PLENARY SESSION 1 (this session offers 1.25 contact hour/1.00 Rx)					
COVID Vaccines: Balancing Risks, Benefits, Good Science and Decisions			Tom Dilworth, PharmD - Pharmacy Coordinator – Infectious Diseases, Advocate Aurora Health, Aurora St. Luke's Medical Center Lucas Schulz, PharmD. BCIDP - Clinical Coordinator – Infectious Diseases, UW Health System		In this presentation, we review SARS-CoV2 vaccine information, including their unique mechanisms of action, clinical data including activity against novel variant strains, and mitigation strategies for common adverse reactions. We explore what we have learned about the science of COVID prevention and treatment and address how life moves on in a post-COVID vaccine world.

NAPNAP – WI Chapter Annual Board Meeting April 15, 5:00-6:00 pm via ZOOM	
<p><b>Join Zoom Meeting</b>  <a href="https://zoom.us/j/93000032414?pwd=TFZ2UHQ0dzV3WnRnOVh6dW9MTmRnQT09">https://zoom.us/j/93000032414?pwd=TFZ2UHQ0dzV3WnRnOVh6dW9MTmRnQT09</a>  Meeting ID: 930 0003 2414  Passcode: 114788  Dial by your location: +1 312 626 6799 US (Chicago)  Meeting ID: 930 0003 2414  Passcode: 114788</p>	<p>Please join us for our annual board meeting and APN of the year award!  We would love for you to join us in highlighting our accomplishments over the past year, what we are doing in the upcoming year, and how you can get involved. We look forward to connecting with you! <i>Stacy Boden - President</i></p>

## FRIDAY CONFERENCE SCHEDULE

7:45-8:15 AM SITE OPENS FOR CONFERENCE - Participants can view Virtual Exhibit Hall or check out the Virtual Poster Display						
FRIDAY CONFERENCE April 16, 8:15-9:15 AM PLENARY SESSION 2 (this session offers 1.0 contact hour/no Rx)						
Antiracism: A Vision for a New Normal		Shiva Bidar-Sielaff, MA, CDM - Vice President/Chief Diversity Officer, UW Health		This session will focus on creating common understanding of diversity, equity and inclusion. We will be discussing specific actions that can be taken by APNs to address bias and dismantle racism.		
9:15-9:30 AM BREAK for Virtual Exhibit Hall and Virtual Poster Display						
FRIDAY CONFERENCE April 16, 9:30-10:45 AM BREAKOUT SESSION 5 (each session offers 1.25 contact hours – choose one)						
#	Rx	Specialty Track	Title	Presenters	Session Description	Novice (N) or Experienced (E)
5A	.75	Pediatric	Update on Acne Vulgaris	Joree Ruiz, PA-C - Physician Assistant-Pediatric Dermatology, Medical College of WI/Childrens WI	Review of pathogenesis, types of acne and proper treatment.	N + E
5B	1.25	Women's Health	Adult Vaccination Update 2021: Taking a Shot at Protecting Your Female Patients	Audrey M. Stevenson PhD, MPH, MSN, FNP-BC - Division Director Family Health, Salt Lake County Health Department	Vaccines are one of the most important preventive measures we can use to protect our patients against vaccine-preventable diseases. Many of our patients are missing several of the vaccines that could prevent preventable many communicable diseases and cancers. This fast-paced session will provide the clinician with the most current information on the vaccines recommended for individuals throughout adulthood. Case scenarios will be used to assist the clinician in providing the patient information to assist in shared clinical decision making and addressing vaccine hesitancy.	E
5C	.25	Acute Care/ Primary Care/ Geriatric	Community Crisis, Community Response. An independent, rural health system's response to the COVID-19 pandemic.	Christopher Barron, RPh, MBA Executive Director–Population Health & Clinical Services, Fort HealthCare Sarah Pagenkopf, PharmD, BCPS Director of Pharmacy/ Residency Program Director, Fort HealthCare	Fort HealthCare's commitment to population health shaped their pandemic response and contributed to Jefferson County's success. Hear from Fort HealthCare representatives as they detail their organizational and community response to the COVID-19 pandemic. COVID-19 therapeutics will be broadly discussed.	N + E
5D	1.00	Psychiatric	Precision Medication Management: The Fusion of Art and Science in Medication Selection	Joshua Babu, MD - Medical Director of Adult Behavioral Health, UnityPoint Health-Meriter Hospital	There are many confounding variables that potentially hinder effective medication selection and management. I would like to cover those variables (both biological and psychosocial) as well as go over guidelines to improve precision in medication selection with a focus on psychiatric practice.	N + E
10:45-11:00 AM BREAK for Virtual Exhibit Hall and Virtual Poster Display						
FRIDAY CONFERENCE April 16, 11:00 AM-12:15 PM BREAKOUT SESSION 6 (each session offers 1.25 contact hours – choose one)						
#	Rx	Specialty Track	Title	Presenters	Session Description	Novice (N) or Experienced (E)
6A	0.75	Pediatric	Management of Pediatric Hypertension	Shelley Chapman DNP, BSN Pediatric Nurse Practitioner for Nephrology and Kidney Transplant, Children's WI/Medical College of WI	I will review changes to the AAP Clinical Practice Guideline for screening and management of high blood pressure in children and adolescents, including the use of ABPM (Ambulatory Blood Pressure Monitoring). I will provide recommendations for non-pharmacologic and pharmacologic management of hypertension for pediatric patients. We will also address special populations and situations. We will then go through a few cases and determine the best management for the patient based on their clinical presentation.	N + E

<b>6B</b>	<b>1.00</b>	Acute Care	<b>Well Cultured – Applying Infectious Disease Principles to Clinical Practice</b>	Sarah Goecks, APNP, AGNP-BC <i>Inpatient Infectious Disease, University of Wisconsin-Madison, UW Health</i>	Presenter will utilize the antibiotic ladder approach to conceptualize appropriate escalation and de-escalation of antibiotics to prevent antibiotic resistance and improve antibiotic stewardship, and discuss common misunderstandings in antibiotic prescribing. We will then review case studies from the field - including pathogens endemic to Wisconsin. Presentation will finish with things to consider prior to consulting infectious disease; indications/diagnosis in which infectious disease should be consulted. <b>N + E</b>
<b>6C</b>	<b>0.50</b>	Primary Care/ Geriatric	<b>Dementia Management – When Dementia Becomes the Primary Diagnosis</b>	Sarah Endicott, DNP, GNP-BC, PMHNP-BC - <i>Clinical Professor, UW-Madison School of Nursing</i>	We will discuss dementia management organized by stage, early, moderate and late. The talk will include guideline-based dementia assessment including pearls for diagnosis. Management strategies will include both pharmacologic and non-pharmacological treatments. Finally, we will discuss prevention and management of neuropsychiatric symptoms of dementia in outpatient and long-term care settings. <b>N + E</b>
<b>6D</b>	<b>1.00</b>	Psychiatric	<b>CBD: A Pharmacist’s Perspective</b>	Alexandra Sklansky, PharmD, BCPP - <i>Pharmacist, UnityPoint Health-Meriter</i>	Topics covered: CBD stats, CBD makeup, law, pharmacodynamics, pharmacokinetics, efficacy, adverse effects, drug interactions, example patient cases. <b>N + E</b>

**12:15-12:45 PM LUNCH - Visit the Virtual Exhibit Hall and Virtual Poster Display**

**FRIDAY CONFERENCE April 16, 12:45-2:00 PM BREAKOUT SESSION 7 (each session offers 1.25 contact hours – choose one)**

#	Rx	Specialty Track	Title	Presenters	Session Description <span style="float: right;">Novice (N) or Experienced (E)</span>
<b>7A</b>	<b>1.25</b>	Pediatric	<b>The Evaluation and Treatment of Pediatric Functional Constipation</b>	Denise M. Kilway, DNP, RN, APNP Pediatric Nurse Practitioner, Department of Pediatrics, Division of Pediatric Gastroenterology, Medical College of WI/Children’s WI	This session will discuss the evaluation and treatment of Pediatric functional constipation utilizing pharmacologic and non – pharmacologic interventions. <b>N + E</b>
<b>7B</b>	<b>0.75</b>	Women’s Health	<b>Managing Menopause: Current and Emerging Therapies</b>	Makeba Williams, MD - <i>Director, Division of Academic Specialists in General Obstetrics and Gynecology, UW School of Medicine and Public Health</i>	We will review the latest management strategies and treatment options for menopausal symptoms, applying current evidence regarding pharmacologic and nonpharmacologic treatment options. <b>N + E</b>
<b>7C</b>	<b>0.75</b>	Acute Care	<b>Diagnosis and Management of Hyponatremia</b>	Bartho Caponi, MD - <i>Clinical Professor of Medicine, UW School of Medicine and Public Health</i>	Will address rationale for and features of complete workup; Differential diagnosis of hypotonic hyponatremia; Management of acute and chronic hypotonic hyponatremia. <b>N + E</b>
<b>7D</b>	<b>0.75</b>	Primary Care/ Geriatric	<b>Clinical Lipid Updates: New Drugs &amp; New Insights in Lipidology</b>	Sanford Carimi, MD, FACP, FNLA <i>Physician, Director of UnityPoint-Meriter Lipid Clinic, UnityPoint Health</i>	Discussion of determining risk assessment of who needs treatment with emphasis on the “Intermediate” risk group of if/when to treat. For those who need treatment, understanding basic management of Lipids with some Perles on treating statin intolerant or difficult to get to LDL goal patients, as well as learning about the new medication options including PCSK-9 inhibitor & other newer non-statin drugs. <b>N + E</b>
<b>7E</b>	<b>1.00</b>	Psychiatric	<b>Alcohol Abuse Disorder</b>	John Ewing, MD - <i>Co-Director Addiction, UnityPoint Health-Meriter Newstart</i>	Topics will include: the reward system and the opponent process in substance abuse; the nature of states of disinhibition in the development of addiction; the mechanisms of acute alcohol withdrawal and the medical management of the various stages of alcohol withdrawal; mechanisms of post-acute withdrawal and the binge and recovery cycle; the brainstem balance model of addiction and disease concept; and Medication Assisted Treatment for Alcohol use disorder. <b>N + E</b>

**2:00-2:15 PM BREAK for Virtual Exhibit Hall and Virtual Poster Display**

FRIDAY CONFERENCE April 16, 2:15-3:30 PM BREAKOUT SESSION 8 (each session offers 1.25 contact hours – choose one)					
#	Rx	Specialty Track	Title	Presenters	Session Description <span style="float: right;">Novice (N) or Experienced (E)</span>
8A	1.00	Pediatric	Management of Medication Overuse Headaches	Michele K. Brown, MSN, RN, APNP, CPNP-BC - <i>Lead Headache Management Advanced Practice, Children's WI and Medical College of WI</i>	Brief description of the three classifications of headaches – Primary, Secondary, Neuropathies/Facial – will be followed by a focus on Medication Overuse Headaches (M.O.H.) in the pediatric population. You will learn the evaluation process for determining an M.O.H. and discuss treatment options including acute, preventative, and alternative. We will review differential diagnoses and headache red flags, and discuss specific patient scenarios. <b>N + E</b>
8B	.25	Women's Health	Incontinence Evaluation and Treatment	Chirasakdi Ratanawong, MD <i>Urologist, Ascension-St. Michael's Hospital, Stevens Point</i>	Evaluation and treatment of types of incontinence including multimodal therapy--Behavioral, PT, Pharmacotherapy as well as surgery. <b>N + E</b>
8C	1.00	Acute Care/ Primary Care/ Geriatric	Anticoagulation, Coagulopathies and Thrombophilia: Evaluation and Treatment Options	Cate Ranheim, MD, MMM <i>Hospitalist/Hematologist, UnityPoint Health</i>	Coagulopathies and thrombophilia are challenging to evaluate and to treat. This case-based session will review the most common clotting and bleeding disorders, including COVID-related conditions, with a focus on the risk and benefits of specific therapeutics. Participants will work together to solve specific clinical problems following a brief presentation on each topic. No preparation is needed prior to the session. <b>N + E</b>
8D	.75	Psychiatric	My Patient has a Bipolar Diagnosis – Now What?	Debra Benishek, APNP, CNS, PMH-FNP - <i>APNP, Innovative Counseling</i>	Bipolar Disorder can look different depending on the course of the illness and when the diagnosis is made. People with this disorder will be in different states across the course of their lives. They can be depressed or in a period of mania or a period of wellness. In adults, mania and depression are fairly easy to identify from normal states. For kids the picture is not as clear. We do not yet have the technology to accurately detect physical indicators of either specific illness, nor laboratory tests to confirm a diagnosis. This talk is to give clinicians the tools to make the best diagnosis possible and to provide the best treatment for your patient. <b>N</b>
3:30-3:45 PM BREAK for Virtual Exhibit Hall and Virtual Poster Display					
FRIDAY CONFERENCE April 16, 3:45-5:00 PM PLENARY SESSION 3 (this session offers 1.25 contact hour/.75 Rx)					
Mental Health, COVID, and Change; A status update on coping, caring, and moving forward			Jennifer Fiegel-Newlon, DNP, PMHNP, FNP, APNP <i>Psychiatric Mental Health NP, Gundersen St. Josephs; Clinical Associate Professor, UW-Madison School of Nursing</i>		We will discuss acute treatment options, the impact of COVID on day-to-day mental health, the impacts on people with chronic mental illness, the impacts on children and teens, and how to adapt to prolonged change.
END OF 2021 CONFERENCE – 5:00 PM					

## SELF-STUDY OPPORTUNITIES AVAILABLE BEFORE AND DURING CONFERENCE

*Registrants are encouraged to 'check-in' to the conference platform in the days preceding conference and to begin these self-study options...*

<p><b>Welcome and Legislative Update</b> - View a recorded welcome message from the Chair of the WNA NP Forum, Tina Bettin, DNP, MSN, RN, FNP-BC, APNP, FAANP and learn about the response of WNA and the NP Forum to current legal issues and pending legislation impacting Advanced Practice Registered Nurses in Wisconsin. Complete the Self Studies section of the online evaluation to earn the CE credit. (offers .50 contact hours/no Rx)</p>
<p><b>Virtual Poster Display</b> – Juried display of APRN research and clinical project posters/brief presentations. Communication with the poster presenter by email is encouraged! Complete the Self Studies section of the online evaluation indicating the posters that you visited to earn the CE credit. (offers .50 contact hours/no Rx)</p>
