Plenary Session 1

TITLE: COVID Vaccines: Balancing Risks, Benefits, Good Science and Decisions

PRESENTERS: Tom Dilworth, PharmD
 Lucas Schulz, PharmD. BCIDP

Completed Evaluation: 170

		Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree
The presenter(s) demonstrated expertise in this content area.		146	23	1		
The information presented was relevant to my learning needs/practice situation.		142	27	1		
					YES	NO
Do you intend to make a change in practice based on what you learned in this session? Please explain:					112	58
YES	<p><i>able to explain that mrna vaccine use has been tried in the past and it is not novel for covid 19</i></p> <p><i>Able to provide more information about this topic to my patients.</i></p> <p><i>Additional ideas to address vaccine hesitancy</i></p> <p><i>Aware of the current information for vaccines</i></p> <p><i>Awareness of current status of COVID-19 vaccines</i></p> <p><i>Being able to educate our patients with factual and EBP re: all the covid vaccines. Being able to provide more information when patients are "on the fence" whether or not to get vaccinated.</i></p> <p><i>Better able to explain the different COVID-19 vaccines and what we know they provide in terms of protections against COVID-19 infections. Better understanding of what things are likely to look like in our post- pandemic world. Also the absolute importance of the US stepping up and getting the rest of the world vaccinated! This might be a response on par with WW I and WW II. We must mobilize and not too late.</i></p> <p><i>Better able to explain vaccine issues to patients</i></p> <p><i>Better explain vaccine and benefits</i></p> <p><i>Better information for Covid Vaccinations questions.</i></p> <p><i>Better prepared with scientific data to answer questions</i></p> <p><i>Better understanding of covid, vaccines and current fears with thrombosis</i></p> <p><i>Continue to monitor vaccines</i></p> <p><i>Continue to partner and adequately inform patients and members of society about COVID-19 and the importance of vaccination.</i></p> <p><i>continue to recommend covid injections</i></p> <p><i>COVID vaccine updates for staff.</i></p> <p><i>Discuss vaccines.</i></p> <p><i>Excellent information on COVID vaccines. Great to have a better understanding regarding the science behind the current COVID vaccines and the rationale for stopping the J&J.</i></p> <p><i>Excellent presentation providing increased knowledge</i></p> <p><i>Fairly in line with my practice (esp with regard to vaccines); helpful to have more information re: variants to discuss with patients</i></p> <p><i>Feel comfortable explaining the risks and benefits of the vaccine and can also better explain the new mRNA method and how it has been studied previously.</i></p> <p><i>feel more comfortable discussing vaccine needs</i></p> <p><i>feel more confident in discussing COVID vaccines with my patients</i></p> <p><i>from week to week hard to keep up on the data.</i></p> <p><i>give more evidence for patients to receive vaccine</i></p> <p><i>Good ideas for talking with those hesitant to get the covid vaccine.</i></p> <p><i>Great information here! I will use this when talking with patients, and in my personal life with family and friends.</i></p> <p><i>Great science based data. Intend to use it to help get family and patients open to vaccinated.</i></p> <p><i>great session on what I have read up on in this fast quick pace of every changing covid-19</i></p> <p><i>Greater understanding of the Covid vaccines specifics and how to educate patients on factual information.</i></p> <p><i>have more knowledge on various vaccine.</i></p> <p><i>helpful when talking with patients about vaccines</i></p> <p><i>I can provide better information about Covid vaccines.</i></p> <p><i>I feel more comfortable in explaining the vaccine options and their side effects to my patients.</i></p> <p><i>I have a much better understanding of COVID vaccine development and effectiveness. Will be able to better provide information to help patients making decisions.</i></p> <p><i>I have been attempting to encourage parents of my pediatric patients to receive Covid vaccine. At times this has been challenging. The information provided will assist me in these conversations with vaccine hesitant individuals.</i></p>

	<p><i>I have better talking points to encourage vaccine use.</i></p> <p><i>I was hoping to rid the mask soon but I guess not - continue masking for safety and wash hands alot</i></p> <p><i>I will be able to add to my counseling of patients incorporate information</i></p> <p><i>Interesting that J&J likely returning.</i></p> <p><i>Learned some techniques on how to dispel vaccine myths.</i></p> <p><i>Loved hearing about the COVID-19 vaccines in detail from the pharmacist perspective.</i></p> <p><i>LOVED their presentation. I felt like I was sitting around a table with these two presenters sharing evidenced based information and thoughts on the current COVID situation. Very knowledgeable. I could have listened to them for another hour.</i></p> <p><i>Monitoring for J&J reactions.</i></p> <p><i>more informed dialogue with pts and family</i></p> <p><i>more thorough education for patients on COVID vaccines</i></p> <p><i>most up to date of COVID resources and references that can be utilized in my clinical practice</i></p> <p><i>New data to share with patients/colleagues</i></p> <p><i>New ideas on how to respond to anti-vaxxers. Good information on future possibilities.</i></p> <p><i>nice wording for those who are not onboard for vaccines!</i></p> <p><i>Perfect timing considering the J&J vaccine. I have so many friends, family, and patients who ask questions about the vaccine so helpful to have accurate information to provide to them.</i></p> <p><i>Personal knowledge & response to patient COVID/vaccine concerns</i></p> <p><i>Plan to be more tolerant of those fearful, try to be helpful with clear factual data</i></p> <p><i>Plan to make some copies of some hand-out pages to have available to discuss with my patients who are hesitant about COVID Vaccine.</i></p> <p><i>Plan to utilize specific data for special populations to encourage additional adherence to vaccination use</i></p> <p><i>Promoting and educating patients on vaccination</i></p> <p><i>Screening</i></p> <p><i>staying current of covid interventions and supports</i></p> <p><i>Take time to take care of myself if I feel burnout</i></p> <p><i>These two gentlemen are excellent sources of the most relevant up to date information regarding all things covid /vaccine/ research. Their style of sharing information makes it understandable. I would definitely attend any future presentations by them.</i></p> <p><i>These two presenters were the best. Wish this was not the last one of the day.</i></p> <p><i>This offered great explanations to provide to patients.</i></p> <p><i>This was an excellent topic and the speakers did an awesome job educating about the vaccine. I feel like I have more resources to help those patients who are unsure about getting the COVID vaccine.</i></p> <p><i>update on COVID and trends is every changing</i></p> <p><i>Useful and interesting information on vaccinations especially with some of the populations like IBD.</i></p> <p><i>vaccinate</i></p> <p><i>valuable talking points for promoting vaccine acceptance among patients and the public at large</i></p> <p><i>Very informational and helps in discussion Covid-19 vaccines with my patients.</i></p> <p><i>Very interesting information presented.</i></p> <p><i>When patients voice concerns regarding how quickly the vaccine came out, I feel better equipped to answer that.</i></p> <p><i>Will change how I discuss Covid vaccine efficacy with my patients.</i></p> <p><i>will continue to encourage patient's to get the COVID vaccine. and educate on the importance of the vaccine.</i></p> <p><i>Will continue to encourage people to get the vaccine</i></p> <p><i>Will use the info to educate patients</i></p> <p><i>WOW this was a great presentation. Informed me on so many facts on the COVID vaccines as well as side effects and the future of vaccination. Will be informing all of my patients and family members on this information to help encourage vaccination!</i></p> <p><i>You were the best mythbusters we could have asked for. I now have a response to anybody who asks me about the myths surrounding the vaccine. I feel like I can now better educate my patients, friends and family.</i></p>
NO	<p><i>Does not affect direct inpatient care management currently. Good understanding of a state, nation and global aspect of where we are at with COVID and immunizations.</i></p> <p><i>Good information, will not change my practice</i></p> <p><i>I am already pro vaccines and this presentation just validated my own findings when I research this topic. Therefore, I will continue educating my patients about the importance of vaccinations, especially for COVID-19.</i></p> <p><i>I am currently very active in recommending the COVID vaccines. Helpful information to relay to patient.</i></p> <p><i>I continue to encourage COVID vaccination among all my patients as it is.</i></p> <p><i>knowledge base</i></p> <p><i>Retired</i></p> <p><i>This was great overall information to get as a subspecialty provider who is not necessarily on the front lines but patients still seek information from me and this content will help in those interactions.</i></p> <p><i>Update was helpful to curb all the stories.</i></p> <p><i>Will continue to encourage and facilitate vaccination</i></p>

	<p><i>Appreciated the most up to the minute information on vaccines. Tom's internet connection was not the greatest - missed some of what he was saying.</i></p> <p><i>Awesome efforts for both of you including info up to the last minute on this ever developing topic</i></p> <p><i>AWESOME job presenting and so knowledgeable. Really broke down all information about the vaccines and side effects. Loved the EBP and the fact that they both addressed every question.</i></p> <p><i>Both were great!</i></p> <p><i>Enjoyed listening and learning about this topic</i></p> <p><i>Excellent</i></p> <p><i>Excellent information on COVID vaccines</i></p> <p><i>Excellent presentation! So thankful for the update & having the flood of information about COVID & vaccines distilled so well</i></p> <p><i>Excellent summary of a lot of complex information!</i></p> <p><i>Excellent. Especially the info on thrombosis with vaccines vs covid and or influenza. Both are excellent speakers. Would love to see them back next year.</i></p> <p><i>good and thorough</i></p> <p><i>good job</i></p> <p><i>Good job, thanks!</i></p> <p><i>Great discussion and excellent subject matter coverage.</i></p> <p><i>Great information</i></p> <p><i>Great information, thank you.</i></p> <p><i>great job</i></p> <p><i>Great job! Thank you for adding your expert opinions in addition to the overview of the literature. I was glad to see that you updated the information to include the latest available data.</i></p> <p><i>Great job! Thank you for taking on the myths and including the most recent update on the J&J vaccine.</i></p> <p><i>Great job, thank you for your service and information provided. Very helpful!</i></p> <p><i>Great presentation and was easy to stay engaged.</i></p> <p><i>Great presentation skills, practiced speakers.</i></p> <p><i>Great presentation!!</i></p> <p><i>Great, could have listened longer!</i></p> <p><i>help me clear up some confusion</i></p> <p><i>My favorite presentation of the day. Content was up to date and relatable. Easy to understand data which will be great to disseminate to my colleagues and inform patients.</i></p> <p><i>nice job - please present again!!!</i></p> <p><i>Nice update, current.</i></p> <p><i>no, I thought it was nice how up to date the information was.</i></p> <p><i>Phenomenal presentation. Thank you!</i></p> <p><i>Thank you !</i></p> <p><i>thank you for great review.</i></p> <p><i>Thank you for presenting such current information</i></p> <p><i>Thank you for sharing your expertise!</i></p> <p><i>Thank you for the very timely presentation. It was very well done.</i></p> <p><i>Thank you to both!</i></p> <p><i>thank you!</i></p> <p><i>Thank you!</i></p> <p><i>Thank you!</i></p> <p><i>Thank you, thank you, thank you for breaking down the information on vaccines, research, variants, myths/ all things covid - in ways I could understand.</i></p> <p><i>They do a great job working together and presenting a lot of information clearly in a short time.</i></p> <p><i>This presentation was extremely well done, especially given the rapid change of information concerning COVID-19! I could tell both presenters were extremely knowledgeable and well prepared to speak on this topic.</i></p> <p><i>This was very well explained for a new and hot topic</i></p> <p><i>Very Good</i></p> <p><i>well done</i></p>
